06/11/2025	Susie Freeman	Composition in Photography	An overview of the different composition techniques used in all the areas of creative design and, with examples, a demonstration of how they can be applied to photography. Good composition comes naturally to many photographers, but this is often by instinct rather than logic. The aim of this talk is to give the audience a greater depth of understanding of how taking photographs with planned composition, that is, by positioning the elements with consideration, can strengthen the final image, wherever the genre.
13/11/2025	John Pal	My photographic Journey	John will describe his photographic development and how the PPS programme has influenced his photography.
27/11/2025	Alan Cameron LRPS ARPS	Travels in Namibia	Alan will present experiences and photographs from his latest expedition.
11/12/2026	Rebecca Entwistle	Flash Photography	A little history and development of the use of flash in photography, providing knowledge of the basics and identifying some common mistakes. A certain amount of audience participation is encouraged. Members will come away with more knowledge and how it works without all the deep knowledge but how to control lighting and how we can use it to be effective in our photography.
